PLANNING & ZONING BOARD MEETING

MINUTES

August 15, 2017 7:00 PM
City Hall
3921 Church Street

- A. CALL TO ORDER:** The meeting was called to order @ 7pm.
- B. ROLL CALL:** P&Z Chairman Vinh Glover, Felicia Weinert, Charles McFarland, Birendra Dhakal, P&D Manager Shawanna Qawiy and Secretary Melissa Foster.
- C. APPROVAL OF JULY MEETING MINUTES:** Mr. McFarland made a motion to approve the July minutes. Ms. Weinert gave a second and the motion passed 3/0.
- D. NEW BUSINESS**
1. Public Hearing: Proposed text amendment to **Appendix A, Article III-Administration- To not require a site plan for every rezoning application; To eliminate zoning reversion when property is not developed in one year: To provide for zoning of annexed property; To repeal conflicting ordinances; and for other purposes.** Ms. Qawiy gave an overview of the proposed amendment and the public hearing was opened. Robert Buckler-RBM Decatur spoke in favor of the amendment. Doris Berry-Glen Oaks Drive and Amy Medford-Rowland Street spoke in opposition to the amendment. Ms. Berry wants a site plan to be required and the time limit for development kept at one year. Ms. Medford had concerns regarding elimination of the site plan because there is no way for P&Z to make sure an application supports the plans that have been set forth for Clarkston in the 2040 Comprehensive Plan. She suggested that perhaps redefining what a site plan is could be a reasonable compromise. She wants new development in Clarkston planned for with thought and intent. She also requested clarification from the Board referencing zoning reversion if a developer requested an extension of a project that has not started. Ms. Qawiy made reference to Section 306-Conditions to rezonings (2) and explained that currently in the ordinance if an extension is requested by the developer based on the reversion of zoning, the allowable maximum extension currently in the zoning ordinance is six (6) months. Ms. Qawiy also clarified that a conceptual site plan will need to be submitted to Planning and Zoning and City Council for any planned unit developments, over two (2) buildings on a parcel. The public hearing was closed. Mr. Dhakal made a motion to approve the proposed text amendment to Appendix A, Article III-Administration-To not require a site plan for every rezoning application; To eliminate zoning reversion when property is not developed in one year: To provide for zoning of annexed property; To repeal conflicting ordinances; and for other purposes. Ms. Weinert gave a second and the motion passed 3/0.

2. Rezoning request from Robert Buckler d/b/a RBM Decatur, LLC to **rezone properties located at 3449 Church Street and 801 Glendale Road from I-Light Industrial to NR-3 High Density Neighborhood Residential**. Ms. Qawiy gave an overview of the rezoning request, citing that when any request is made for a change in the zoning for any parcel of property, or when an amendment is requested to the zoning map, the following criteria points must be reviewed as follows; Criteria 1) The effect upon the health, safety, morals or general welfare of the public compared to any hardship imposed upon the individual property owner seeking rezoning should rezoning be denied; Criteria 2&3) Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property; whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property; Criteria 4) whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned; Criteria 5) whether the zoning proposal will result in a use that may cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools; Criteria 6) Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal; Criteria 7&8) Whether the zoning proposal is compatible with the principles of the city's long range plan as set forth in the Conceptual Master Land Use and Connectivity Plan for the City of Clarkston, a part of the Clarkston Livable Centers Initiative Study as adopted in March 2005, adopted as the city's comprehensive plan; Whether the zoning proposal is compatible with the most current adopted version of the Future Development Map of the Clarkston Comprehensive Plan.

There were two (2) staff recommendations:

- (1) Staff recommended denial of the rezoning request due to an incomplete application that requires a conceptual site plan to be included in the rezoning application submittal packet.
- (2) Staff recommended approval of the rezoning requests and to amend the zoning map to reflect the final approval of the rezoning of the properties located at 3449 Church Street, Clarkston and 801 Glendale Road, Scottdale from I-light Industrial to NR-3 High Density Neighborhood Residential subject to the proposed text amendment to Section 302 of the zoning ordinance being approved at the 8/15/17 Planning and Zoning meeting and the 9/5/17 City Council meetings, that would allow certain rezoning applications to proceed without a conceptual/site plan.

The public hearing was opened and Chairman Glover asked if there were any attending the meeting in favor of the rezoning request;

Amy Medford-Rowland Street- is in favor of the rezoning and wants to make certain there would be a homeowners association for the development and that traffic flow is considered since traffic tends to back up at the railroad crossing.

Robert Buckler-RBM Decatur – Applicant-stated that the property is the gateway to Clarkston and has more value as a residential development. He also stated that Ms. Medford's concerns would be addressed by the developer.

Brian Medford-Rowland Street – stated that development is coming our way and this is a good chance to promote sustainable development in Clarkston. He asked if the property was environmentally safe and Mr. Buckler said a Brownfield study had been done and that the property is certified by the state to be safe.

Doris Berry-Glen Oaks Drive- stated that she has been a resident of the City of Clarkston for many years and was delighted to see development happening at the old 3M site. She is all for a committed development plan that will benefit the community.

Joe Gargiulo-Glendale Road – is pleased with the rezoning and asked if the zoning includes apartments (Chairman Glover stated it does not) and how many units are allowed per acre in the NR-3 Zoning classification. Ms. Qawiy stated it could be 8 units or more, but it depends on the layout during the site plan review.

Chairman Glover asked if there were any attending the meeting in opposition of the rezoning request;

Warren Hadlock-W. Smith Street- stated that he was not in favor of a townhome development and would like to see the lot developed as mixed use.

Ted Terry-Casa Woods Lane- stated that he only found out about the rezoning request yesterday and issued a statement about the size and readability of the signs. Chairman Glover confirmed with the Planning and Development Manager that the signs were posted 30 days ago and had been advertised in the newspaper for the legally required limit. He questioned why the rezoning request seems to be on the fast track. Mr. Terry asked the Board to table the rezoning request so that he and the Council would have time to review the text amendment further before making a final decision about the rezoning request. Mr. Glover stated that P&Z can only make a recommendation to the Council and that the Council will make a final decision. Mr. Terry again suggested that P&Z table the rezoning and noted that the Comprehensive Plan for the industrial part of Clarkston was to attract light manufacturing and to create jobs. Mr. Glover suggested that Mr. Terry have that conversation with the City Council. He stated his concerns about this development not being affordable housing. Mr. Glover stated that this was not a forum for that discussion and that the City Council could certainly table the rezoning request.

Melvic Smith-Rainey Apparel Manufacturing spoke in opposition and explained how this location should remain light industrial since his company is seeking additional space for his apparel business. Mr. Glover suggested they stop by City Hall to introduce themselves to the city. Mr. Smith said the property did not appear suitable to him as high density residential.

Laura Hopkins-Poplar St. asked about making the property mixed-use, so that it could be car-free and sustainable.

The public hearing was closed.

Mr. McFarland made a motion to approve the rezoning requests and to amend the zoning map to reflect the final approval of the rezoning of the properties located at 3449 Church Street, Clarkston 30021 and 801 Glendale Road, Scottdale 30079 from I-Light Industrial to the NR-3 High Density Neighborhood Residential as a recommendation to the City Council. Ms. Weinert gave a second and the motion passed 3/0.
